

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. §1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

In claim 1 at lines 12-13, the term "2,2-dialkylthiazolidine-4-carboxylic acid" was amended to read -- an acyl moiety derived from a 2,2-dialkylthiazolidine-4-carboxylic acid wherein alkyl is methyl or ethyl --.

In claim 1 at lines 16-17, the term "L-carnitine or acetyl-L-carnitine" was amended to read -- L-carnitinyl or acetyl-L-carnitinyl --.

In claim 1 at line 35, the term "the N-heterocycle group" was amended to read -- the aliphatic or non-aromatic N-heterocycle group bonded to variable Z by a carbon-carbon bond --.

In claim 1 at line 36, the term "and Q² is optional" was deleted.

Claims **12, 15, 18, 21, 24 and 30** were cancelled without prejudice to the filing of a divisional or continuing application.

Authorization for this Examiner's Amendment was given in a telephone interview with Jane Massey Licata on December 4, 2008.

The following is an Examiner's Statement of Reasons for Allowance:

Examiner notes applicant's most recent amendment and appreciates the problems effectively addressed therein. The above amendments and claim cancellations have effectively addressed the additional problem of incompletely defined chemical structure "(II)," by narrowing the scope of independent claim 1 and cancellation of dependent claims wherein reference has been made to the incompletely defined or inoperative functional groups. Additional minor corrections have been made to address errors in nomenclature. In view of applicant's amendments, applicant's authorization of the amendments made herein, and the provisions of MPEP §804 permitting issuance of one application when there is only a

provisional double patenting rejection of record, no issues concerning patentability remain. Therefore, the instant claims have been found to be allowable as presently amended.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
